024-CPR-06-2013

EN 14351 – 1:2006 + A1:2010

Windows (including roof windows) and external pedestrian doorsets without resistance to fire and /
or smoke leakage

Aluminium and glass element for commercial and private buildings

Project reference **Order number / Order name**

Element reference **Item reference**

System supplier **Schuco**

System description **ASS 70 HI sliding door**

Thermal transmittance (W/m²K) **1.6 {>3.6m²}**

Dangerous substances **NONE**

Load bearing capacity of safety devices (N) **NONE FITTED**

Ability to release (for escape doors only) **NONE FITTED**

Reaction to fire (class) npd

External fire performance (class) npd

Radiation properties Light transmittance (%) npd
Solar Gain (%) npd

Resistance to wind load (class) B5 / C5

Impact resistance of glass (class) Class A

Watertightness (class) 7A

Air permeability (class) 4

Acoustic performance (dB) npd
