023-CPR-06-2013

EN 14351 – 1:2006 + A1:2010

Windows (including roof windows) and external pedestrian doorsets without resistance to fire and / or smoke leakage

Aluminium and glass element for commercial and private buildings

**Project reference**      **Order number / Order name**

**Element reference**      **Item reference**

**System supplier**      **Schuco**

**System description**      **ASS 50 sliding door**

**Thermal transmittance (W/m<sup>2</sup>K)**      **1.80 {>3.6m<sup>2</sup>}**

**Dangerous substances**      **NONE**

**Load bearing capacity of safety devices (N)**      **NONE FITTED**

**Ability to release (for escape doors only)**      **NONE FITTED**

Reaction to fire (class)      npd

External fire performance (class)      npd

Radiation properties      Light transmittance (%) npd  
Solar Gain (%)      npd

Resistance to wind load (class)      B4 / C3

Impact resistance of glass (class)      Class A

Watertightness (class)      7A

Air permeability (class)      4

Acoustic performance (dB)      npd
